New Stone Age

If you think it's impossible to bend marble, a trip to the MM Galleri showroom will change your mind. Introducing a technology that bends 2mm-thick marble – too thin and it will snap, too thick and it remains unyielding – MM Galleri works with local enterprise Sharikat Stone to create elegant furniture clad in authentic marble. With lesser marble, this fashionable furniture is lighter and ecologically sustainable. As creative director of MM Galleri, Peter Tijoe, puts it, "The new Stone Age has arrived."

FIND OUT MORE ABOUT THE MARBLE-BENDING TECHNOLOGY AND TAKE A LOOK AT THE FURNITURE COLLECTION AT 6 CHIN BEE AVENUE, LEVEL 4.

Growing With You

Who knows best about children's bedrooms? Children, of course! French furniture brand Gautier has launched Nuance, a customisable bedroom collection that was designed after an extensive consultation with a committee of kids aged eight to 13. The star of the chic collection is a bed frame with a strapped headboard, giving little ones the freedom to decorate their surroundings anyway they like. Nuance also surpasses the strict European requirements for air quality, and contains wood that has low formaldehyde levels.

CHECK OUT THE NUANCE COLLECTION BY GAUTIER AT #01-15 SPACES @ TAMPINES, 18 TAMPINES INDUSTRIAL CRESCENT, TEL: 6908-0880.

Air Force One

Germophobes, rejoice! French appliance manufacturer Tefal's latest innovation, the Air Force 360 handstick vacuum cleaner, will make cleaning hard-to-reach areas in the home a breeze. Its floor nozzle features a built-in LED light that can illuminate dark crevices where dust often accumulates unnoticed, and the machine's advanced cyclonic technology produces a powerful suction that can clean every surface. It is also highly versatile – the cordless vacuum cleaner converts easily from handstick to handheld, and is lightweight, too!

THE TEFAL AIR FORCE 360 RETAILS FOR \$599 AT MAJOR ELECTRICAL RETAILERS. WWW.TEFAL.COM.

Safe Not Sorry

Gas leaks are a serious issue in urban households, so when it comes to ensuring that the gas pipes in your home are in good condition, investing in a quality gas detector is essential. With City Gas' gas detector, you can safeguard your home with a peace of mind. This handy device comes in a compact frame and a long 3m cable, making it perfect for small and big kitchens alike. There's even a free three-step installation that you can carry out on your own.

THE CITY GAS GAS DETECTOR RETAILS FROM \$99, AND IS AVAILABLE AT CITY GAS GALLERY, AS WELL AS SELECTED DISTRIBUTORS. CALL 1800-555-1661 OR VISIT WWW.CITYGAS.COM.SG.
